

Aaweg Bhaladhare

GenAI Engineer · Multimodal RAG & Agentic Systems · LLM Evaluation

aawegbhaladhare03@gmail.com · [+91 92845 37320](tel:+919284537320) · Pune, India · linkedin.com/in/aaweg · github.com/Aawegg

SUMMARY

AI/ML engineer with hands-on experience leading **LLM evaluation** at Turing (Terminal Bench, OS Bench, SWE-Bench) and shipping **production multimodal RAG** with a full **MLOps** stack. Comfortable across the research-to-production gap: agentic systems, retrieval, evaluation pipelines, FastAPI services, and cloud deployment.

EXPERIENCE

Turing Enterprises

Jan 2025 - Apr 2026

Team Lead, LLM Evaluation Engineer (rated "Top Performer")

Remote

- Led a contributor pod for **Terminal Bench** workflows: task distribution, review cycles, escalation, and quality alignment; rated "Top Performer".
- Designed and validated benchmark tasks evaluating frontier agents (Claude Opus, GPT-5.x) on terminal and **SWE-Bench** operations (debugging, CI/CD, live GitHub bug-fix / feature tasks), and built validation + similarity-detection pipelines enforcing test correctness, instruction-test alignment, and de-duplication.
- Built a **Python LLM-review automation pipeline** (OpenAI, Anthropic, Google Drive APIs) scoring tasks across 22 domains with a 3-phase workflow and parallel batch reporting (CSV / Excel / Markdown).
- Directed rework of 50 client-flagged tasks: average score **5.44 to 7.14 (+1.70)** across 21 approved tasks, team review average **4.96 / 5.0**.

Tars Technologies

Jun 2024 - Jan 2025

ML Engineer (Intern)

Pune, India

- Built a **YOLOv8** object-detection model for mine-worker safety monitoring, reaching **95% accuracy** on protective-gear detection.
- Shipped a face-recognition attendance system for **50+ employees** and contributed to the model-serving / inference-API layer of a full-stack LMS (Next.js, React, MySQL).

PROJECTS

MosaicMind - Multimodal RAG & MLOps Pipeline

2025 - 2026

FastAPI · LangGraph · LlamaIndex · ChromaDB · Gemini 3.x · CLIP · Groq Whisper · MLflow · Airflow · Docker · GCP Cloud Run

github.com/Aawegg/mosaicmind-rag · huggingface.co/spaces/Aaweg/mosaicmind

- End-to-end agentic **multimodal RAG** over PDF, image, audio, and video on a **FastAPI** service with SSE token streaming; agent built as a **LangGraph** plan / retrieve / synthesize / reflect state machine with a self-critique loop.
- Hybrid retrieval over ChromaDB in LlamaIndex (Gemini text + CLIP image embeddings); full MLOps loop with **MLflow** tracking, **Airflow** DAGs, pytest + ruff in **GitHub Actions CI**, deployed to **GCP Cloud Run** and Hugging Face Spaces.

priorityjudge - LLM-as-Judge Plan-Quality Auditor

2026

Python · Pydantic · google-genai SDK · scipy · GitHub Actions CI · Docker

github.com/Aawegg/priorityjudge

- Multi-pass agent (extractor, 5 per-criterion scorers, citation verifier, synthesizer) on Gemini 3.x with **perfect Spearman** correlation to the human grader, **96.5% citation precision**, and 28 passing CI tests.

NibbleCore - C++ Inference & Benchmarking Engine

2025 - present

Low-level **C++** quantization kernels (ARM NEON SIMD) and an OS-level LLM benchmark harness in Docker-in-Docker sandboxes. github.com/Aawegg/nibblecore

OPEN-SOURCE

LlamaIndex (run-llama/llama_index · 49k stars)

[PR #21625](#) · [Issue #21610](#)

Diagnosed and patched file-descriptor / HTTP-connection leaks in the HotpotQA evaluation benchmark using context managers and `json.load`; opened the issue with a reproduction plan and submitted the fix.

SKILLS

Languages	Python · C / C++ · TypeScript · SQL · Bash
LLMs & Agents	Gemini · Llama · LangGraph · LangChain · LlamaIndex · RAG · multi-agent orchestration · function calling · prompt engineering
ML / DL	PyTorch · Hugging Face Transformers · SentenceTransformers · CLIP · YOLOv8 · OpenCV · LoRA / QLoRA · quantization (GGUF) · NLP
Evaluation	LLM-as-judge · SFT / RLHF trajectories · Terminal Bench · SWE-Bench · faithfulness & hallucination scoring · Spearman / Kendall calibration · rubric design
Backend & MLOps	FastAPI · Pydantic · SSE · async Python · Docker · MLflow · Airflow · GitHub Actions CI/CD · pytest
Cloud & Data	GCP (Cloud Run, Artifact Registry, Secret Manager) · Hugging Face Spaces · AWS (familiar) · ChromaDB · PyMuPDF · ffmpeg

EDUCATION & CERTIFICATIONS

B.Tech, Artificial Intelligence & Data Science - Vishwakarma Institute of Information Technology, 2021 - 2025 · CGPA 8.54
Pune

Certifications: IBM Data Science Specialization · IBM Machine Learning · Microsoft Power BI Data Analyst · Generative AI Essentials (Microsoft & LinkedIn)
